ANSWER SHEET
WRITING

ID NUMBER

AHГ1-24

The City of the future

Welcome to Khanty-Mansiysk, a city, that pulsates with the energy of innovation. Step into the world where the boundaries of imagination blur with reality.

High-speed transport

Flying vehicles are everywhere. Personal cars, taxis, buses - all of them now cruise in the air, allowing you to get from anywhere to everywhere in almost no time, while being energy-efficient and safe for the environment.

Assistance in business

Automation has been deeply integrated into our workspace. Artificial intelligence is playing an important role in business: analysing data, writing documents and reports, helping in making difficult decisions. Thanks to modern technologies, our work has moved to virtual offices that can be easily set up at home.

~~Talk~~ Eating some lunch

Food has never been healthier before. Every person is assigned personalized nutrition based on their lifestyle. Lab-grown meat is getting increasingly popular. All of this is possible thanks to advances in software, allowing it to predict and adapt to any situation.

Peak of entertainment

There are many virtual reality attractions located all around the city. These attractions feature videogames that cater to your wishes. You can make the story, characters and mechanics. In addition to that, you can enter immersive futuristic theme parks and experience things you'll never forget! You can even see how the city looked hundreds of years ago! If you prefer staying outdoors, don't worry, the traditional sports and activities didn't change a bit.
